

# 40" x 48" MEDIUM-DUTY BULKPAK®

Produce ■ Caps/Closures ■ Industrial Equipment ■ Metal Parts ■ Plastics and Rubber ■ Resins and Powders ■ Tools

The medium-duty BulkPak® 4048 GP Series was designed for a wide variety of product sizes, shapes and weights. It allows more parts to be handled, stored and shipped...with fewer containers and in fewer trips. The advanced design results in a consistent tare weight that improves inventory and shipping efficiencies. With a weight capacity 1,500-2,000 pounds, these containers are ideal for all types of food, industrial or beverage applications, as well as for international shipments. These containers are structural-foam molded in high-density polyethylene for durability. Custom protective dunnage is available for all ORBIS BulkPak containers. (See pp. 63-66.)

### Want to drive supply chain efficiency?

Talk to your ORBIS Sales Representative about Engineering Services to identify your needs and design a reusable packaging program to add efficiency to your entire system. See pp. 1-2 for more information.

Structural channel cover available for added product protection and secure stacking.

100% recyclable

CGP4048 (cover)

GP4048-50

GP4048-46

Ventilated sidewalls available on 32" and 46" models.

All-plastic construction eliminates risk of rust.

GP4048-34

Full picture frame bottom reduces risk of "short forking".

Consistent tare weight

Self-standing sidewall for safe and efficient assembly and collapse.
