

48" X 45" BULKPAK® HOPPER CONTAINER

Resins and Powders ■ Dry Goods ■ Granules ■ Spices

The BulkPak Hopper Bottom Container is ideal for accurately dispensing small, granular materials such as seed, grain, powder, resins, and small, uniformly shaped products. The 48" x 45" hopper bottom containers eliminate the need to dump material, no secondary removal processes are necessary, no material is lost or wasted and no contamination takes place. Hopper Containers are structural-foam molded in high-density polyethylene and available in three heights, including 39", 48" and 50". The base consists of a gravity feed mechanism.
