 ■ Metal Parts ■ Plastics and Rubber ■ Resins and Powders ■ Tools

Based on a 48" x 45" footprint, the BulkPak® Fixed Wall HDSR series of containers was developed to meet the specific industry need for shorter, sturdier containers with noncollapsible sidewalls and one-piece molded base construction. Ideal for applications with high weight, low volume requirements, all fixed wall BulkPaks feature a maximum load capacity of 2,000 pounds.

Based on the standard footprints, these containers are designed and constructed to efficiently move, store and ship automotive, appliance and transportation equipment components.

These one-piece containers are structural-foam molded in high density polyethylene for durability. Custom protective dunnage is available for all ORBIS BulkPak containers. (See page 7.)
