 ■ Metal Parts ■ Plastics and Rubber ■ Resins and Powders ■ Tools

The BulkPak® 6448 HD Series containers are ideal for the storage and transport of long, heavy parts. These containers were designed for lengthy, hard-to-fit parts common in the automotive industry. With weight capacities up to 1,500 pounds, these containers are ideal for all types of automotive and industrial applications. The all-plastic picture frame bottom

reduces the risk of short-forking loads, while offering full recyclability. It is also available in a side-loading style. The self-standing sidewalls make assembly and collapse safe and easy. Custom protective dunnage is available for all ORBIS BulkPak containers. (See page 7.)
