

Bakery and Transport Baskets

Meat/Poultry ■ Refrigerated/Frozen Foods ■ Bakery Items ■ Snack Goods

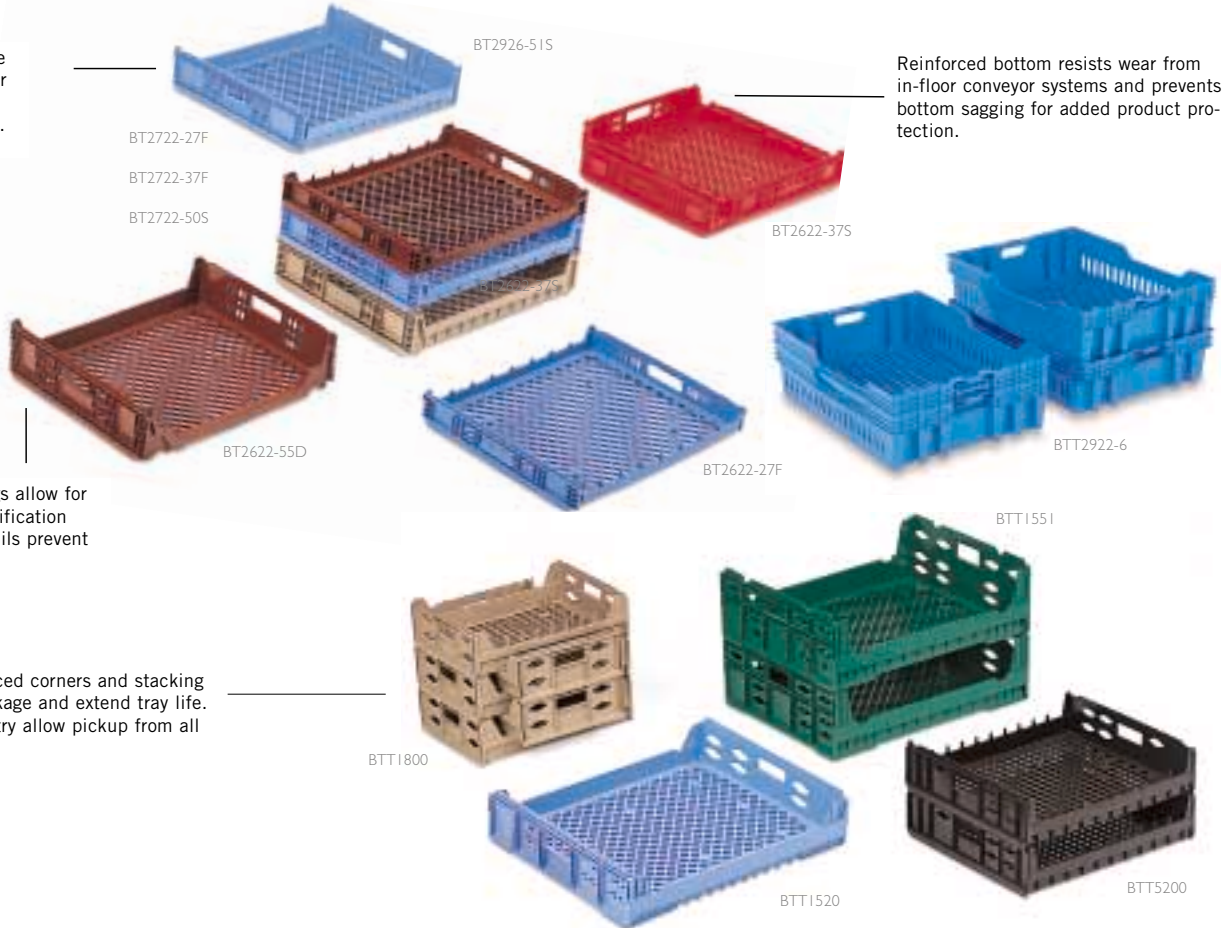

The automation-durable line of Bakery Baskets is a series of multiple height baskets in four popular footprints. The baskets are designed with improved features that make them ideal for any automated or manual handling system. The Transport Basket line offers a broad selection of styles and sizes. These

high-quality, impact-resistant baskets are suitable for a wide variety of applications, such as distribution of baked goods, specialty items, vending products, cheese, produce and light-duty industrial parts. Dollies are available in all footprints. Contact your ORBIS representative for more information.

Locations available for hot stamping or molded-in logo for easy identification.

Reinforced bottom resists wear from in-floor conveyor systems and prevents bottom sagging for added product protection.

End panel openings allow for easy product identification and interlocking rails prevent shifting in transit.

Rounded, reinforced corners and stacking tabs reduce breakage and extend tray life. Assisted front entry allow pickup from all sides.

Specifications All dimensions in inches unless specified.

Confectionery Containers

Produce ■ Bakery Items ■ Snack Goods

Confectionery Trays are all-plastic, stack-only, one-piece trays designed for use in confectionery processing, curing and handling. Easy to clean trays with no deep corners or crevices ensure safe and convenient handling and long service life. Their excellent release characteristics prevent chipping and flaking, providing protection against product contamination.

These containers have no nails to rust or corrode and offer three choices for ventilated patterns. Heavy-duty dollies are also available for rapid, safe transport of product.
