ORBIS offers many top cap footprints to accommodate your material handling application. Available in injection molded, structural foam or single sheet thermoformed versions, these top caps provide durability and performance for increased load integrity.

Top caps help maintain the uniform weight distribution for secure load stacking, especially when used with seat belts. Eliminate the use of banding, stretch wrapping and associated machinery, while reducing labor costs.

## 20 x 28 Top Cap CISF

- Enhanced durability for long life
- Lightweight
- Used in closed-loop shipping operations and work-in-process applications
- Legs of pallet fit in molded-in pockets on the top cap to lock the loads together to provide a stable load for shipping
- Options (p 111): Hot stamp, identification plates

## 28 x 40 Top Cap CISF

- Enhanced durability for long life
- Lightweight
- Used in closed-loop shipping operations and work-in-process applications
- Legs of pallet fit in molded-in pockets on the top cap to lock the loads together to provide a stable load for shipping
- Options (p 111): Hot stamp, identification plates

## 30 x 36 Top Cap CISS

- Single sheet thermoformed (HMWPE)
- Designed to interlock with the 30 x 36 nestable seat belt pallet
- Ideal for automotive and general manufacturing applications
- Compatible with StakPak 12" x 15" and 12" x 7" Container System
- Options (p 111): Vinyl labels, identification plates, molded-in logo, custom color striping

## 32 x 38 Heavy-Duty Structo-Cell®

- Solid, robust, structural foam top cap
- Ideal for automotive small lot container and top cap requirements
- Space for AIAG-style tag
- Compatible with StakPak 12" x 7" and 12" x 15" containers
- Options (p 111): Hot stamp, identification plates, molded-in logo

## 32 x 45 Top Cap CISS

- Single sheet thermoformed (HMWPE)
- Designed to interlock with the 32 x 45 nestable pallet legs to provide secure double stacking of pallet loads
- Ideal for the automotive and general manufacturing applications
- Buckle on 32" side only
- Compatible with StakPak 32" x 15" Container System
- Options (p 111): Vinyl labels, identification plates, molded-in logo, custom color striping

## 40 x 48 GMA Top Cap C CISS

- Single sheet thermoformed (HMWPE)
- Designed to interlock with the legs of the 40 x 48 CISC and 40 x 48-B GMA CISF pallet to provide secure double stacking of pallet loads
- Compatible with 4048 Container System
- Options (p 111): Vinyl labels, identification plates, molded-in logo, custom color striping

## 4548JOURNEY Top Cap

- Strong, durable structural channel
- Designed to interlock with the legs of the 45 x 48 JOURNEY pallet, as well as bulk containers and competitors pallets to provide secure double stacking of pallet loads
- Resistant to bowing and deflection found in traditional thermoformed top caps
- Compatible with StakPak Container System
- Options (p 111): Vinyl labels, identification plates, molded-in logo, hot stamp

## 45 x 48-2 SBRR MI ID CISS LP Pallet (acts as top cap)

- Single sheet thermoformed (HMWPE)
- Mirror-image design that allows the pallet to be used as a top cap
- Versatile system ideal for automotive and general manufacturing applications
- Compatible with StakPak Container System and Hand Held Folding Containers
- Options (p 111): Vinyl labels, identification plates, molded-in logo, custom color striping

## 45 x 48 MP 2 Top Cap CISC

- Resistant to bowing and deflection found in traditional thermoformed top caps
- Compatible with StakPak and Hand Held Folding Container Systems and many nestable pallets (See Compatibility Chart on page 83.)
- Available in three versions:
  - Standard - no buckle attachments
  - Perimeter buckle attachment (ideal when used with 45x48-B Seat Belt pallets)
  - Inboard Buckle attachment (ideal when used with 45x48-C Seat Belt pallets)
- Options (p 111): Vinyl labels, molded-in logo, identification plates, hot stamps

## 45 x 48 CIISS Top Cap

- Single sheet thermoformed (HMWPE)
- Designed to interlock with bottom deck of various 45 x 48 CIISF pallets to provide secure double stacking of pallet loads
- Compatible with StakPak Container System
- Options (p 111): Vinyl labels, molded-in logo, identification plates, custom color striping

### Top Cap Specifications

Model	Dimensions			Weight (lb.)	Nest Ratio	Starting Sheet Gauge	Truckload Quantity 53' Trailer
