WITH THE OCEAN IN MIND

Leading the way in repurposing coastline plastic waste.

Reducing ocean-bound waste in the communities that need it most

Within **32 MILES** of coastlines and waterways, **ORBIS** removes single-use plastic before it enters our oceans.

LARGEST CONTRIBUTING MATERIAL

single-use consumer packaging

FROM PLASTIC POLLUTION

Plastic waste collected from coastlines

Reprocessed into reusable resin

Manufactured into reusable packaging solutions

TO PACKAGING SOLUTIONS

ORBIS is diverting roughly

1 MILLION LBS OF SINGLE-USE PLASTIC

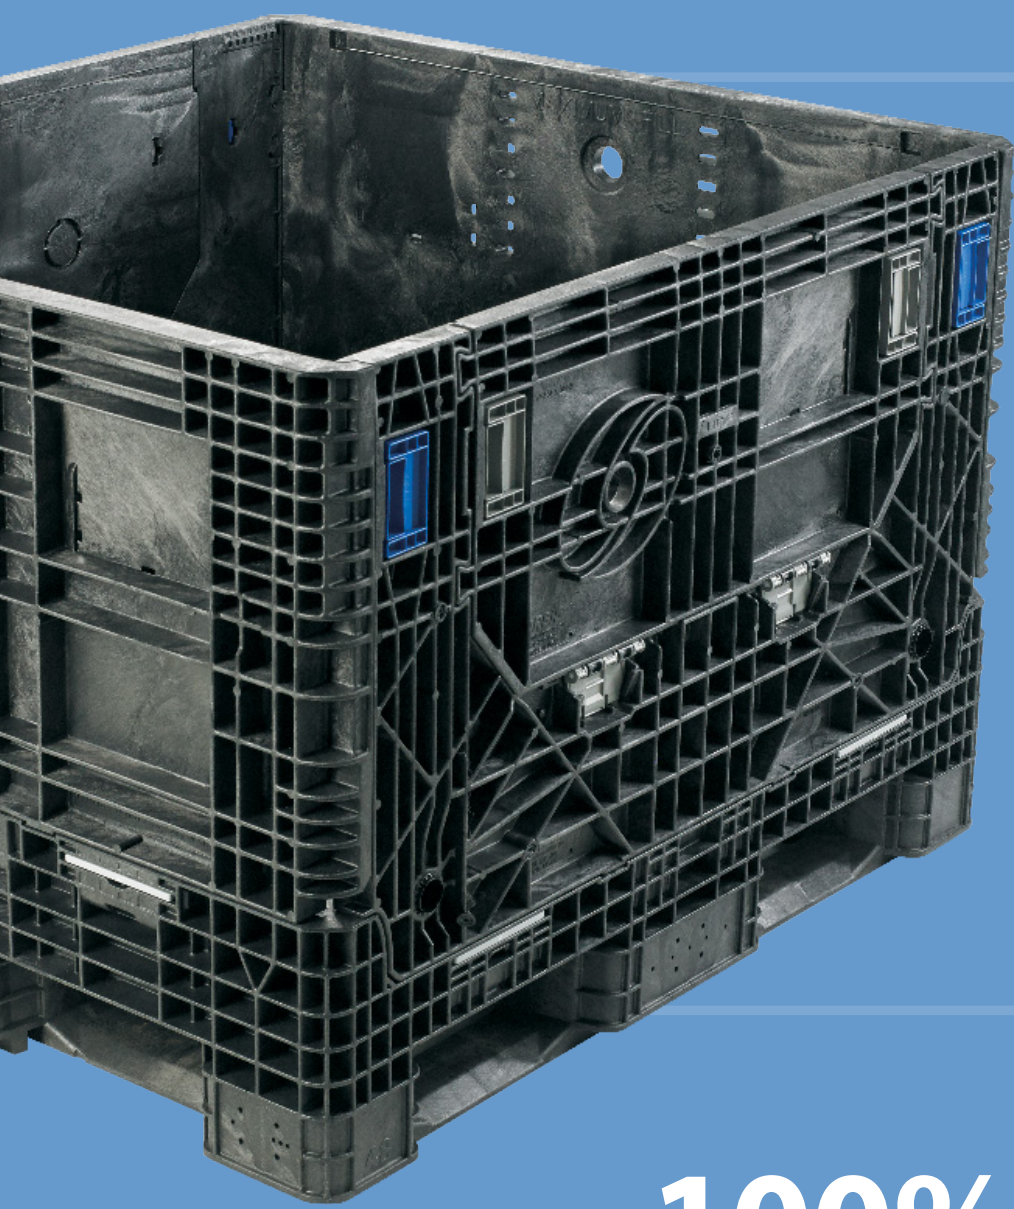

from our oceans and waterways this year

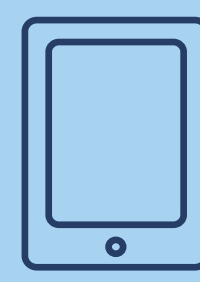

EQUIVALENT TO

50M SHAMPOO BOTTLES

out of our oceans and waterways

Stimulating developing countries socially and economically

ORBIS collaborates with partners to collect coastline waste in developing countries resulting in job opportunities, improved access to basic necessities, education, services and technology.

100% of core packaging solutions from **ORBIS** are recyclable, preventing them from joining the solid waste stream.

Sustainability starts at the supply chain. Cultivate sustainability efforts in your business by partnering with **ORBIS**: orbiscorporation.com/en-us/sustainability
