PRODUCT APPLICATION SHEET

42 x 30 Small Format HP

The 42 x 30 Small-Format HP Pallet is designed to optimize the supply chain of small footprint retailers by eliminating product touches during the order replenishment process, from distribution center (DC) to store to floor. With this pallet, full case and split-cases can be sorted and loaded at the DC.

The recyclable pallet is then delivered to the store and used as a replenishment platform at the point of sale. Once pallets arrive at the retailer, they can be moved directly to the floor, reducing labor costs and maximizing storage space.

BENEFITS

- Faster deliveries, with 30" pallet width that provides access through narrow doorways
- 45 pallet locations per 53' trailer
- Generous clearance for forklifts to de-nest a full stack of pallets
- Slanted fork entry and a discontinuous, stepped pallet lip
- 20 lb tare weight and ergonomic hand holes
- Molded-in stretch wrap notches in each pallet corner
- Fork Truck Entry: 4 way; Hand Truck Entry: 4 way (21" tine)
