## PRODUCT APPLICATION SHEET

# 44 x 56 Top Frame

The NEW 44 x 56 Top Frame from ORBIS streamlines transportation and handling of food and beverage cans and bottles. It is optimized by pairing with ORBIS' plastic pallets, divider sheets and RPM services.

The system protects unitized pallet loads during the storage and transportation of plastic bottles, aluminum cans and steel cans. This hygienic top frame is built for durability and load protection. Its unique rounded and cleated traction corners secure loads without damage to palletized product. It is designed to be compatible with today's automation in beverage plants.

### BENEFITS

- 44" x 56" x 1" footprint
- 3.5" width
- Rounded and cleated traction corners secure loads
- Easy to clean. Smooth, all-plastic construction.
- No nails, rust or splinters
- Impact resistant and absorbs shock
- Dimensional consistency for seamless interface
- Reusable and 100% recyclable
