Sustainable, Reusable Solutions Improve the Primary Packaging Supply Chain

Reduce environmental waste by replacing single-use fiber corrugate boxes and wooden pallets with reusable plastic packaging.

ORBIS' reusable plastic packaging solutions are optimized for the manufacturing and transportation of beverage preforms, caps and closures, and blown bottle applications. Plastic solutions are hygienic, easy to clean, durable and integrate seamlessly with manual and automatic material handling equipment.

PLASTICORR® Boxes

- **Sustainable** - Reusable up to 70 times
- **Durable** - Impact and moisture resistant
- **Ergonomic** - Plastic, sealed edges reduces potential injury from sharp corners

Common PlastiCorr Box Footprints*	Dimensions (in)		Capacity (lb)
	L	W	
24 x 20	24.0	20.0	30.0
24 x 16	24.0	16.0	30.0

*Additional sizes available upon request

Pallets

- **Stackable** - Space saving for easy storage and transport
- **Robust** - Impact resistant
- **Cleanable** - Flow through design for fast cleaning

Model*	Dimensions (in)			Weight (lb)	Load Capacity (lb)		53' Truckload Quantity
	L	W	H		Static	Dynamic	
P3	48.0	40.0	5.1	29.9	30,000	3,000	600
OCP	44.0	56.0	4.5	51.8	30,000	3,000	528

*Variety of pallet styles available for specific application requirements

P3

HDMX 4048-46

Bulk Containers (Rigid and Flexible)

- **Space saving** - Collapsible and stackable
- **Maximize capacity** - High cubic volume for dense storage
- **Easy dumping** - Quick access doors for fast product access

Model	Outside Dimensions (in)			Weight (lb)	Capacity (lb)	53' Truckload Quantities (w/ covers)	
	L	W	H			Collapsed	Assembled
OPTEBULK MAXCUBE (Flexible)	48.3	40.4	51.7	86.9	800	330	90
HDMX 4048-46 (Rigid)	48	40	46.0	140.0	1,200	240	60
HDMX 4845-50 (Rigid)	48	44.5	50.0	140.0	1,000	182	56
