

Food and Beverage Handling System: 44 x 56 Pallets, Divider Sheets and Top Frames

Transport and store unitized food and beverage loads faster, safer and sustainably with ORBIS' complete solution.

ORBIS' 44 x 56 food and beverage handling system streamlines distribution with three products: pallets, divider sheets and top frames. The system protects unitized loads carrying a variety of food and beverage products, like aluminum cans, steel cans and PET plastic bottles. It offers several supply chain benefits:

- **Hygienic** - Easy to clean with smooth, plastic construction with no nails, rust or splinters
- **Durable** - Impact resistant and shock absorbent
- **Automation Compatible** - Dimensional consistency for seamless interface
- **Sustainable** - Reusable and 100% recyclable

Pallets: Transport Unitized Loads

Model	Dimensions (in)			Weight (lb)	Load Capacity (lb)		40' HC Container Quantity**	53' Truckload Quantity**
	Length	Width	Height		Static	Dynamic		
BulkPal*	44.0	56.0	4.5	55.0	33,000	3,800	368	528
OCP	44.0	56.0	4.5	53.0	30,000	3,000	374	528
HDSC	44.0	56.0	4.4	56.0	30,000	4,000	374	528
UCP	44.0	56.0	4.5	51.0	30,000	3,000	374	528

*Repairable with additional heights available.

**Larger truckload quantities available with specific truckload configurations.

OCP Pallet

Divider Sheets: Minimize Product Damage

Model	Dimensions (in)			Weight (lb)	20' Truckload Quantity	53' Truckload Quantity
	Length	Width	Thickness*			
Divider Sheet: Aluminum Can	44.0	56.0	0.025"	2.05	19,000	20,000
Divider Sheet: Aluminum Can	44.0	56.0	0.030"	2.46	12,800	14,960
Divider Sheet: Steel Can	44.0	56.0	0.050"	4.10	7,680	10,000
Divider Sheet: PET Bottle	44.0	56.0	0.060"	4.92	6,400	8,200

*Additional thicknesses available within a range of 0.025"-0.180".

BulkPal Pallet

Top Frames: Improve Load Stability

Model	Dimensions (in)				Weight (lb)	40' HC Truckload Quantity	53' Truckload Quantity
	Length	Width	Height	Perimeter Width			
HPTF: High Pressure Top Frame	44.0	56.0	1.0	4.0	11.0	1,400	2,350
