The Total Solution for In-Store Fulfillment

XPRESSPICKUP™

Built for retailers, the XpressPickup (XPP) system is the total solution for Buy Online, Pickup In-Store order fulfillment.

Retailers continue to face the challenge of streamlining their in-store operations. With an innovative tote design and enhanced dolly and cart capabilities, the XPP system efficiently supports and improves the picking, staging and delivering of orders curbside.

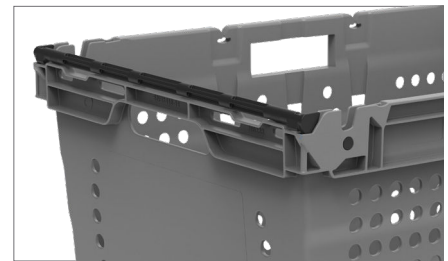

- Integrates with existing in-store BOPIS operations
- Associate-friendly system that includes totes, dolly or cart
- System condenses efficiently when not in use
- Tote include built-in bag hooks for more efficient picking and ventilated walls to facilitate airflow
- Minimize multiple trips with tote's large capacity and stacking capabilities
- Durable and stable equipment that efficiently moves product from floor to curbside
- Safety features include single touch brake, locking mechanisms and visual indicators

OPTIONAL ACCESSORIES

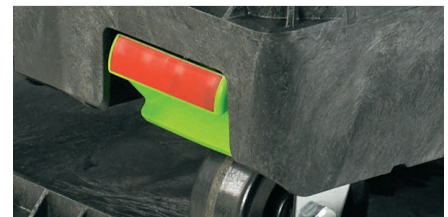

- **XPP Dolly Handle** – removable handle with safety locking mechanism for additional control
- **XPP Dolly Lid** – added system stability/security for site to store transport
- **XPP Dolly Train Adapter** – connect a series of XPP dollies together for single-trip efficiency

REQUEST A DEMO.

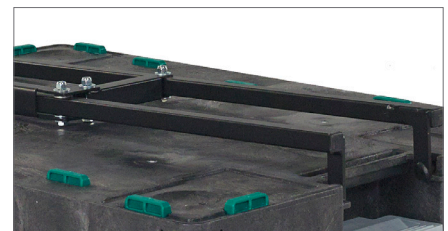

See how the XpressPickup System can ensure more efficient fulfillment and deliver exceptional service, all while maximizing productivity.

Tote ft. bail arms, built in hooks and ventilated walls

Built-in single-touch brake with visual cues

Optional handle stowed for storage

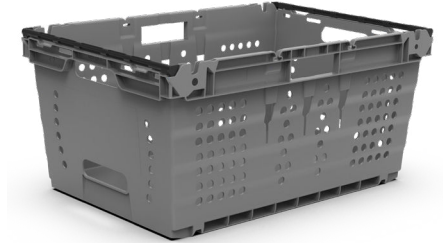

Optional dolly lid with tensioning strap mechanism

PRODUCT SPECS

XPRESSPICKUP™ SYSTEM

XPRESSPICKUP TOTE
