

PRODUCT SPEC SHEET

BA1071 Bread Basket

The BA1071 bread basket is designed for the efficient flow of bread and baked goods throughout the supply chain — from the bakery to grocery stores, mass merchandisers, restaurants, and convenience stores.

When full, these baskets stack securely for easy transport and merchandising. When empty, the baskets cross-stack and nest for back room and truck space savings.

Combine with plastic pallets for a full system to quickly move, store, ship, and merchandise all types of bakery items from bakery to retail.

The BA1071 is fully recyclable at the end of service life.

- 16.6" x 16.6" footprint
- Baskets cross-stack and nest efficiently for return trip
- Rail and groove design facilitates blind stacking
- Automation-compatible features
- Available in FDA-compliant materials
- Shipped, floor loaded or on skids
- Asset tracking systems are available to reduce loss

Product Applications:

- Bakery
- Frozen Goods
- Agriculture
